

We see it stated that Governor Edwards will soon issue a proclamation for the election of a Congressman to fill the place of the Hon. Sterling Price. It has not yet been officially announced that Price has resigned. Mr. Green's friends have suggested him for the vacancy.

Gen. Gaines has been acquitted. The court of inquiry approved of his course in a majority of instances.

Gov. Ford has again ordered out the militia, to protect the lives and property of the citizens of Nauvoo.

In Oregon county, which polled 154 votes, the new Constitution received one vote! What a tremendous influence the Bank and the Judiciary must have among the bank-baiting democracy there! They are all democrats, it seems from the vote—as out of the 154 votes polled, Bowlin received 150. Is not our neighbor alarmed at the way the Bank and the Judiciary are leading the "incorruptible" astray?

Our CONGRESSIONAL ELECTIONS.—The Whigs have been in high hopes at the prospect of gaining a member of Congress—probably two, and possibly all! There was no moderation in their boasts—no doubt in their anticipations. Their cry was, only abolish the general ticket system and we will succeed—it is that alone which keeps us in the minority. The system was changed, and now what has been the result of the first election? Each congressional district, by an overwhelming majority, has elected Democrats.

Each Congressional District was made with a direct eye to overpowering the whig voters of the State, regardless of shape, convenience, honesty, and common decency; and yet the "Inquirer," congratulates itself upon the success of the democracy! It reminds us of a set of outlaws, frolicking over their ill-gotten gains.

Head Quarters, 1st Battalion, 1st Regiment Missouri Mounted Volunteers, C. F. Ruff, Lt. Colonel Commanding, CAMP ON ARKANSAS RIVER, July 27th, 1846.

Messrs. BEXSON & GREEN.—After leaving Pawnee Fork, from which point I last wrote you, over which we were obliged to swim our horses and draw our wagons across with ropes, we left the Santa Fe trail on our right, which crosses the divide between the Arkansas and Pawnee Fork and took to the river bottom with the intention of following it to the Fort, believing from the parched appearance of the grass on the ridge that we would in all probability find no water unless we pursued this course. This river courses through a barren and sandy country, with the exception of a narrow strip of land, some six to eight hundred yards wide upon either bank. Upon the south or Texas side, at this place, the bluffs or sand hills, rise to the height of from twenty to forty feet, presenting a singular, and beneath the rays of the setting sun, strikingly beautiful appearance. On the other side, the bottom is about half a mile wide, covered in many places with luxuriant meadows of excellent grass.

We have been marched twenty-five miles a day for the past two weeks or more, and many of our horses are fast falling under this forced march. If it is continued throughout, the 1st Regiment of Missouri Mounted Volunteers, will compose a Regiment of Infantry, and march into Santa on foot. Curses are daily imprecated upon the heads of Col. Doniphan and Lt. Col. Ruff, who alone are charged with being the cause of our fast travelling, though they are not at all in fault, as they are only acting under orders from Col. Kearney; at least so Col. Doniphan informed me last week. In fact, he said that the Colonel had given him seven different orders since the 1st inst., not to march less than 25 miles a day.—The cause of this is owing to Col. K.'s last dispatches from Mexico, which he says warrants him in straining every nerve to get to our destination in as short a space of time as possible. Thanks to the superiority of our Volunteers' horses over those bought by the Government to draw our field pieces, we now have an opportunity to recruit our horses. Many of those drawing cannon have entirely failed, and were turned loose upon the prairies. In consequence of this, we received orders from Col. K. not to march over ten miles a day.

Another cause of complaint is that our Coffee gave out a week since, and we have no chance to procure a supply until we reach Bent's Fort, two days march from this place. We are told that pickled pork and bread baked in ashes, make a very healthy diet; and perhaps it is, but my word for it, an addition of a cup of good coffee after a march of twenty-five miles beneath a broiling sun, would at least be very acceptable: at any rate so I thought on more than one occasion.

I have often seen rain, heard thunder, and witnessed the lightning's vivid flash, but I have never before seen such as can at times be seen upon these plains. On the night of the 22d, being officer of the guard, I had an opportunity of witnessing one of these storms: The guard was posted at the usual hour, and I took my place at the camp fire, in a few minutes the raining was falling in torrents, peal after peal of thunder followed in quick succession and rolled across the prairies; ever and anon the forked lightning played fantastically along the clouded heavens, and the shrill cry of the wolf in the distance, altogether rendered the scene truly sublime! yet at that moment I would have given all its beauty and sublimity for a dry blanket!

We are now within two days' march of Bent's Fort, where I have been informed we would make a halt for a few days, and I expected to have deferred writing this letter until our arrival at that point, where I expected we would receive some dispatches direct from Santa Fe, but

the mail arrived this evening and will return tomorrow morning, which leaves me but little time to communicate the very little news that we have stirring amongst us. It is rumored that the Mexicans are fortifying the passes in the mountains through which the road runs, and that they have twenty-five hundred men already equipped, and Gov. Armiño has made a requisition on the Governor of Chihuahua for 5000 more, but as to the truth of these reports I cannot vouch. If we take possession of Santa Fe without a battle, it is the opinion of Col. Doniphan that we will be ordered to California or Chihuahua.

The general health of the company is, and has been, very good, with the exception, perhaps, of some who volunteered merely for the sake of the probable benefit to be derived from the change of climate, &c. Some of these will be discharged at the Fort.

It is now quite dark and I must bring this hastily written communication to a close, by assuring the citizens of Howard that her troops are in fine spirits and determined if there is any fighting to be done they will have a hand in it.

Respectfully yours,
THOS. J. BARTHOLOW,
Comp. G. M. M. V.

Lieut. DeCourcy and 20 men ten Howard and ten Saline volunteers, were sent forward from Bent's Fort towards Taos as a spy company. In the stampede mentioned by some of the papers, Horsley, Foust, Williams, McCully and Powell lost their horses among the Howard boys; the rest 60 or 70 were in the Clay, LaFayette, Cole, Calaway, and Franklin companies.

Runaway Negroes.—We understand that a gentleman, living in Macon county, while out hunting with his rifle last week, came suddenly upon two fugitive slaves, who gave him battle.—He shot one, and split the other's skull with the barrel of his gun. He then started for home, but before reaching it, he met a man in the road, who inquired if he had seen or heard of two runaway negroes,—describing them. The gentleman replied that he had just killed two, and related the circumstances. On proceeding to the spot, the stranger identified them as his slaves! He made provision for their burial and he returned home.

THE DREAD DISEASE, Consumption, is speedily and effectually cured by the use of the Great English Remedy, Buchan's Hungarian Balsam of Life. This is no quack nostrum, but a standard English Medicine, of known and established efficacy.

From Coleman & Co., Buffalo, N. Y. We have now had the agency of the Hungarian Balsam at this place one year, and from the increasing demand, and the numerous testimonials of those who have used it, many of whom were personally acquainted with, we deem it a truly valuable medicine in all cases of Pulmonary affection, and with confidence recommend it to the afflicted.

Foreign Periodicals. Reproduction of THE LONDON QUARTERLY REVIEW, THE EDINBURGH REVIEW, THE FOREIGN QUARTERLY REVIEW, THE WESTMINSTER REVIEW, BLACKWOOD'S EDINBURGH MAGAZINE.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals.—Blackwood's Magazine being an exact fac-simile of the Edinburgh edition. The wide-spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs, they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character. They embrace the views of the three great parties in England—Whig, Tory, and Radical.—"Blackwood" and the "Edinburgh Quarterly" are Tory; the "Edinburgh Review," Whig; and the "Westminster," Radical. The "Foreign Quarterly" is purely literary, being devoted principally to criticisms on foreign Continental works. The prices of the REPRINTS are less than one third of those of the foreign copies, and while they are equally well got up, they afford all the advantage to the American over the English reader.

TERMS. PAYMENT TO BE MADE IN ADVANCE. For any one of the four Reviews, \$3.00 per annum. For any two, do. 5.00 " For any three, do. 7.00 " For all four of the Reviews, 8.00 " For Blackwood's Magazine, 3.00 " For Blackwood and the Reviews, 10.00 "

CLUBBING. Four copies of any or all of the above works will be sent to an address on payment of the regular subscription for three—the fourth copy being gratis.

Remittances and communications must be made in all cases without expense to the publishers.—The former may always be done through a Post-master by handing him the amount to be remitted, taking his receipt and forwarding the receipt by mail, Post-paid; or the money may be enclosed in a letter, Post-paid, directed to the publishers.

Notice is hereby given that I have administered on the estate of James Pitney, dec'd., late of Howard County, Missouri, bearing date May 1st, 1846. All persons indebted to said estate, are requested to make immediate payment, and those having claims against it, to present them, properly authenticated, within one year from the date of said letters, or they may be precluded from having any benefit of said estate, and if not presented within three years, they will be forever barred.

THE "SUGAR COATED INDIAN VEGETABLE PILLS," TRIUMPHANT. AN OBSTINATE CASE. Baltimore, Feb. 13th, 1845.

Dr. H. W. Andrews: Sir.—The box of Dr. Smith's "Sugar Coated Indian Vegetable Pills," I purchased of you some two months past. I found in their application to my son (of about fifteen years of age) the most happy effects on the system. He had been for some years very delicate in health, and very much subject to Fever and Chills, so much so as to create alarm for his future health, and for two or three years we had to keep him from school most of the time. I am now frank to acknowledge the complete restoration of his health, and a fair prospect of its permanent enjoyment.

JOHN A. SAUNDERS, No. 189 Hanover St. The above gentleman is a well known wholesale merchant in Baltimore. WISTAR'S BALSAM OF Wild Cherry. THE GREAT REMEDY FOR CONSUMPTION OF THE LUNGS. Affections of the Liver, Asthma, Bronchitis, Pain or Weakness of the Breast or Lungs, Chronic Coughs, Pleurisy, Hemorrhage of the Lungs, and all the Affections of the Pulmonary Organs. NATURE'S OWN PRESCRIPTION. The Moss of Iceland, the Wild Cherry Bark and Pine of our northern latitudes, are the principal ingredients in the compound. The great secret in its efficacy consists in the method by which they are prepared. Such in fact is the nature and simplicity of this medicine, so powerful in action, yet so mild, safe and pleasant in its operation, that it must be partly termed "Nature's own Prescription;" and although but two years have elapsed since they were first made public, we can proudly say, it has acquired a celebrity unprepared to become the most popular and valuable medicine ever discovered.

The great remedy for all diseases of the Lungs continues to send joy and happiness to every cheerful fire-side, and still there is room to diffuse its kindly health-giving magical wand. Whosoever will, let him come and be cured.

ANOTHER INVALID RESTORED TO HEALTH. [Read the following statement of facts from Mr. Eli Baily, a highly respected merchant of Vienna, Johnson County, Illinois.] Messrs. Phelps & Baily, St. Louis, Mo. Gentlemen:—A desire to benefit the afflicted throughout the land has alone induced me to make the following statement of facts respecting one of the most astonishing cures ever recorded. My son, now seventeen years old, has been afflicted during his whole life with a constant cough, pain in the side and chest, accompanied with night sweats and fever, which produced great emaciation and debility; and intervals during the night his expectoration would become so great as to endanger his life from strangulation. During this time his life was attended by many physicians of the highest repute, whose prescriptions gave but temporary relief, in fact, so alarming were the symptoms, and so inveterate was his disease, that I was compelled to believe him beyond the reach of medical aid.

All our neighbors and friends who saw him, regarded him as one who was rapidly approaching an early and premature grave. After having thus exhausted the skill of our best physicians without obtaining relief, I was prevailed upon, by the advice of a friend to make use of Wistar's Balsam of Wild Cherry.

He commenced its use about the 30th of December, 1844, the first bottle of which gave astonishing relief, and I began again to indulge in the fond hope that he might yet be restored to health. After having continued the use of it until three bottles were taken, the disease was entirely overcome, and his shattered constitution and emaciated form restored to sound and permanent health, which he continues to enjoy up to the present time. I believe the genuine Wistar's Balsam of Wild Cherry to be one of the most valuable medicines ever discovered—knowing, as I do, that the above cure was effected solely by its use.

I am, gentlemen, very respectfully, Your most obedient servant, ELI BAILY. We do not deem it necessary, knowing that a single trial will do more to establish its efficacy, than a volume of testimonials. There are hundreds of Balmers recommended as positive specifics for pulmonary diseases, but where is the evidence of these puny nostrums curing an aggravated case like the one mentioned above.

BE NOT DECEIVED. If you would have the true article, and that which will cure, if a cure be possible, then remember that the "King" of all other medicines, WISTAR'S BALSAM OF WILD CHERRY. Such is the unprecedented success of this Balsam "nature's favorite prescription,"—a prescription congenial to our wants, as it is prepared from chemical extracts from substances which the author of nature has placed in our land for wise purposes,—that many who know nothing of the mode of its preparation, are endeavoring to reap pecuniary benefits by selling an article which bears no name, or its appearance, or by representing their own trash as superior to this Balsam, or by putting up a mixture and solemnly asserting that it is imported from a foreign country.

WHICH IS NOT THE CASE. All these deceptive arts go to show that Wistar's Balsam is known to the world to be the GREAT REMEDY; and to sell any mixture must be like this in name or purport to be like it in substance.

Believe not in the cunningly wrought fabrications, and take only the original and genuine WISTAR'S BALSAM OF WILD CHERRY; no other can be like it. Beware of counterfeits and base imitations. Be sure to get the genuine medicine, and be careful to buy of a regular agent.

Price only One Dollar per bottle. The true and genuine Wistar's Balsam of Wild Cherry is sold, wholesale and retail, by PHELPS & BAILY, corner of Third and Chesnut streets, St. Louis, Mo., General Agents for the Western States and Territories. And for sale by their agents in the following places: Dr. SKEELSON, Fayette; R. P. HANSENKAMP & Co., Glasgow; McCAMBER & COATES, Huntsville; W. C. HILL & Co., Keytesville. [June 27th, 1846.]

THE QUEEN'S PATENT. TRIUMPHANT SUCCESS OF Buchan's Hungarian Balsam of Life.

The Great English Remedy for COLIC, COUGHS, ASTHMA, AND CONSUMPTION!

THE MOST ELABORATE AND INFALLIBLE remedy for Colic, Coughs, Asthma, or any form of pulmonary consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by Dr. Buchan of London, England, tested for upwards of seven years in Great Britain and on the Continent of Europe, and introduced into the United States, under the immediate superintendence of the inventor.

The astonishing success of the Hungarian Balsam, in the cure of every form of consumption, warrants the American Agent, in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as CONTUMACIOUS AND INCURABLE. The Hungarian Balsam has cured, and will cure, the most desperate cases. It is no quack nostrum, but a standard English Medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Swelling of the Lungs, Bronchitis, Difficulty of Breathing, Hoarse Voice, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Whooping Cough, and Croup.

In case of actual disease of the Lungs, or seated Consumption, it is the only source of hope. Sold by McDonald & Smith, Sole Agents for the United Kingdom, at the Italian Warehouse, Regent Street, London, in Bottles and Cases, for Ships, Hospitals, &c.

By Special Appointment.—DAVID F. BRADLEY, 119 Court Street, Boston, Mass., Agent for the American price, \$1 per bottle, with full directions for the restoration of health.

SMITH'S TONIC SYRUP OR VEGETABLE FEBRIFUGE. A SPEEDY, SAFE & CERTAIN CURE FOR AGUE & FEVER.

Chill Fever, Dumb Ague, INTERMITTENT FEVERS, AND ALL THE VARIOUS FORMS OF BILIOUS DISEASES.

THIS VALUABLE MEDICINE is undoubtedly the safest, surest and best remedy ever discovered for the cure of the above named diseases. It not only breaks the chill, but removes the cause from which the disease originates. Its operation is both gradual and sure.

While it acts generally upon the whole system, as a most powerful alterative, purifying the fluids, freeing the solids from all morbid secretions, and reinvigorating and bringing up all the vital energies to a standard of permanent health; it at the same time exerts a specific influence upon the liver, digestive organs and lymphatic and glandular systems, exciting them to beneficial activity, removing all morbid matter, equalizing the circulation, restoring their proper and necessary secretions, thus accomplishing a complete renovation from disease, and restoration to sound and permanent health.

Those who are suffering with the prostrating AGUE and FEVERS common to the West and South—those whose constitutions have become enfeebled by the use of mercury, quinine, or other violent remedies—should resort at once to the use of this VALUABLE MEDICINE.

It is safe and will cure the most obstinate cases. Travelling through every vein and artery of the human body. The whole animal economy is made to undergo a thorough radical change: Even the mind partakes of the healthful process, and life, that before appeared one dreary waste, begins again to seem worth possessing.

Pamphlets respecting this Valuable Medicine, can be obtained of the Agents gratis.
